# GROHE RED®

GROHE Red® Duo hot, cold and kettle hot water  
GROHE Red® Mono exclusively kettle hot water

# GROHE BLUE®

Coloured display indicates dispensing function.

Kettle hot water – a twist of the wrist is all it takes to instantly draw 3 litres of hot water direct from your kitchen tap.

GROHE Red® features a four stage filter and is the only kettle hot tap compliant with building regulations making it a great solution for both retrofit and new builds.

The child safety device means that releasing hot water requires a 2-step pull-and-turn movement on the handle. GROHE CoolTouch® technology also means that the chrome surface is always cool to touch- preventing accidental scalding.

## PURE

Equipped with an integrated 4 stage high performance filter to provide pure great tasting water as well as normal mixed (hot/cold) water ensuring total convenience in the kitchen.

Indicator to highlight when the filter capacity drops below 10% and when filter needs changing for maximum usage.

## CHILLED AND SPARKLING

With all benefits of GROHE Blue® Pure, the latest addition from GROHE Blue® offers the choice of great tasting chilled filtered water that is still, lightly sparkling or fully sparkling straight from your kitchen tap.
