A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL

HOUSE OF ROHL

THE STORY CRAFT TELLS

Perrin & Rowe is a member of the House of Rohl, a collection of artisan brands recognised for their artistry and heritage.

The Rohl family have spent a lifetime seeking stories of dedication, passion and craft. They have brought together diverse brands, exceptional in their category, that complement each other. Independent spirits, but shared values. A belief that quality starts with the material, design is in the detail and craftsmanship is paramount.

Distinctive stories are what makes life exceptional. At the House of Rohl, we discover time-honoured craft, revealing stories unlike any other. Stories of place and provenance. Stories of ingenuity and invention. Stories of a relentless pursuit of perfection.

Welcome to the House of Rohl®

THE PERRIN & ROWE STORY

Forty years ago in East London, Bob Perrin and Greg Rowe began an extraordinary partnership. Despite limited funds and a workshop that was little more than a garden shed, they began by machining brass components that others found too difficult to make. As designers they made their name by producing the world's first 3 in 1 tap – a tap that dispensed hot, cold and filtered water – using their own Triflow technology. This blend of innovation and traditional manufacturing craft defines the Perrin & Rowe brand today.

Our comprehensive range of kitchen and bathroom brassware is manufactured in our own factories in Britain. We still make taps in small batches, pouring molten brass by hand into moulds of our own design. Our sanitaryware is made in Staffordshire, the heart of English ceramic manufacture for three hundred years. By controlling every element of design and production, Perrin & Rowe has become known by architects and design professionals for its quality and durability.

Bob and Greg retired some years ago, but their legacy and passion live on at Perrin & Rowe. Now a luxury brand with an international reputation, our principles of British design and craftsmanship, advanced engineering and traditional manufacturing, remain the foundation of our success.

THE PERRIN & ROWE PROMISE

All Perrin & Rowe products are designed and manufactured in Britain.

We are driven by engineering excellence. We use state of the art manufacturing technology to support our traditional methods and skills.

Our brassware is made from low lead brass of the highest quality available. The surface is plated to a thickness that exceeds industry standards, ensuring a deep, protective coating that is resistant to wear and pleasing to the eye.

We assemble our brassware by hand, and individually water-test each one.

Our handles and spouts include bearing rings and engineering 'O' seals to ensure maximum durability.

Perrin & Rowe brassware has a 'wobble free feel'.

Our ceramic disc valves are tested up to 500,000 cycles and supplied by the world's leading ceramic cartridge manufacturer. On test, valves are repeatedly turned on and off with pressurised water to the equivalent of 25 years' use in a domestic installation.

Perrin & Rowe specifically manufacture for different markets around the globe. No additional adapters or converters are required for installation.

Our aim is to offer the world's finest range of kitchen and bathroom products.

THE INSTANT HOT COLLECTION

BEST IN THE BUSINESS

- Innovative 3-in-1 instant hot mixer, perfect for hot drinks, cooking, food prep and cleaning
- A wide range of standalone dispensers to match all of Perrin & Rowe's current sink mixer styles
- Available in all the Perrin & Rowe standard and special finishes
- Compact, high quality heater tank with state-of-the-art digital touch screen display
- Quick and simple installation using a standard 13amp socket
- 1.5KW element
- 2.4 Litre capacity tank
- Vented system
- High quality filtration system
- Backed by the Perrin & Rowe promise and competitive guarantees

THE HOT WATER TANK AND CARTRIDGE IS COMPACT, FITTING NEATLY UNDERNEATH THE SINK, IT IS ACCESSIBLE FOR EASY SERVICING

UNIQUE FEATURES

DIGITAL TOUCH SCREEN DISPLAY USES LATEST LED TECHNOLOGY, ENABLING THE USER TO SEE INSTANTLY THE STATUS OF THE UNIT

- Unique anti-scald locking mechanism on all instant hot models
- Operates from as low as 1.5 bar
- Multiple pre-set temperatures ranging from 75°C to 98°C
- State-of-the-art digital touch screen display
- Digital temperature control accurate to 0.5°C
- Rapid reheat with zero run off and spit free
- Water saving, time saving and energy efficient
- Hi-flow
- Easy to install and use
- UK manufacturer
- Available in a range of styles and finishes

- Compact design
- Non-pressurised filter housing
- Easy to install with moveable fixing bracket
- New design filter housing connection for quick and easy filter replacement
- High quality cartridge with nano filtration technology removes debris, water borne cysts, bacteria, chlorine, chemicals, bad taste and odour
- Lime scale reduction to increase product lifespan
- 6 month filter life
- Complimentary reminder service for replacement cartridges

DESIGNATED INSTANT HOT WATERWAY
MINIMISES HEAT LOSS
STOPS CROSS CONTAMINATION OF INSTANT HOT
FILTERED WATER
SMOOTH FLOW

UNIQUE ANTI-SCALD LOCK
NEW INNOVATIVE PUSH MECHANISM
EXCLUSIVE SPRING-BACK VALVE

THE CARTRIDGE WITH NANO FILTRATION
ENABLES THE REMOVAL OF 'NASTIES' INCLUDING
WATER BORNE BACTERIA AND CYSTS

THE **FILTRATION** COLLECTION

ALL SYSTEMS FLOW

The technology behind the Perrin & Rowe filtration collection derives from the world's first three-way tap, delivering not only hot and cold water but also filtered water through a dedicated waterway, a system that ensures the filtered water is not cross-contaminated by the standard mains hot and cold water.

It incorporates the highest standard Swiss-made ceramic filter which significantly reduces harmful substances such as chemical and biological contaminants as well as the most heavy metals and particles as small as 0.2 microns, while leaving beneficial minerals such as fluoride, magnesium and calcium untouched.

FOUR STAGE FILTRATION

COMPOSITION

The Ceramic filter incorporated in the Filtration system is the highest performing filters available in the market today and is made by Swiss manufacturer Katadyn. The cartridge is made from sintered diatomaceous earth and has a micro porous structure impregnated with silver which is known for its bactericidal action. The porous structure is able to eliminate particles down to 0.2 micron (0.0002mm) in size. One pound of carbon contains a surface area of roughly 125 acres and can absorb literally thousands of different chemicals.

Activated carbon is carbon which has a slight electro-positive charge added to it, making it even more effective in eliminating chemicals and impurities. As the water passes over the positively charged carbon surface, the negative ions of the contaminants are drawn to the surface of the carbon granules.

THE FILTER HAS BEEN TESTED BY
HARVARD UNIVERSITY, USA
WAUKESHA COUNTY HEALTH, USA
UNIVERSITY OF BASEL, SWITZERLAND
ZURICH UNIVERSITY, SWITZERLAND
MINISTRY OF WELFARE, ARGENTINA
PASTEUR INSTITUTE LILLE, FRANCE
SOUTH AFRICAN BUREAU OF
STANDARDS PRETORIA, SOUTH AFRICA

UNIQUE FOUR STAGE FILTRATION TECHNOLOGY IS RIGOROUSLY TESTED AND DEVELOPED

Diatomaceous Ceramic: Suspended matter and bacteria are retained on the ceramic surface without the use of chemicals

Anti-Bacterial Silver: The ceramic permanently incorporates Katadyn silver that works against bacteria growth in the filter

Carbon Block Core: Absorbs chlorine, harmful chemicals and organic contaminants that contribute to bad taste and odour

Zeolite: Has the capability to remove heavy metals such as lead and mercury

THE CARTRIDGE SIGNIFICANTLY REDUCES THE FOLLOWING SUBSTANCES:

Odour and bad taste

Chlorine

Organic components such as animal and human waste

Bacteria such as E.Coli

Protozoan cysts such as Giardia and Cryptosporidium

Pesticides and herbicides

Solvents

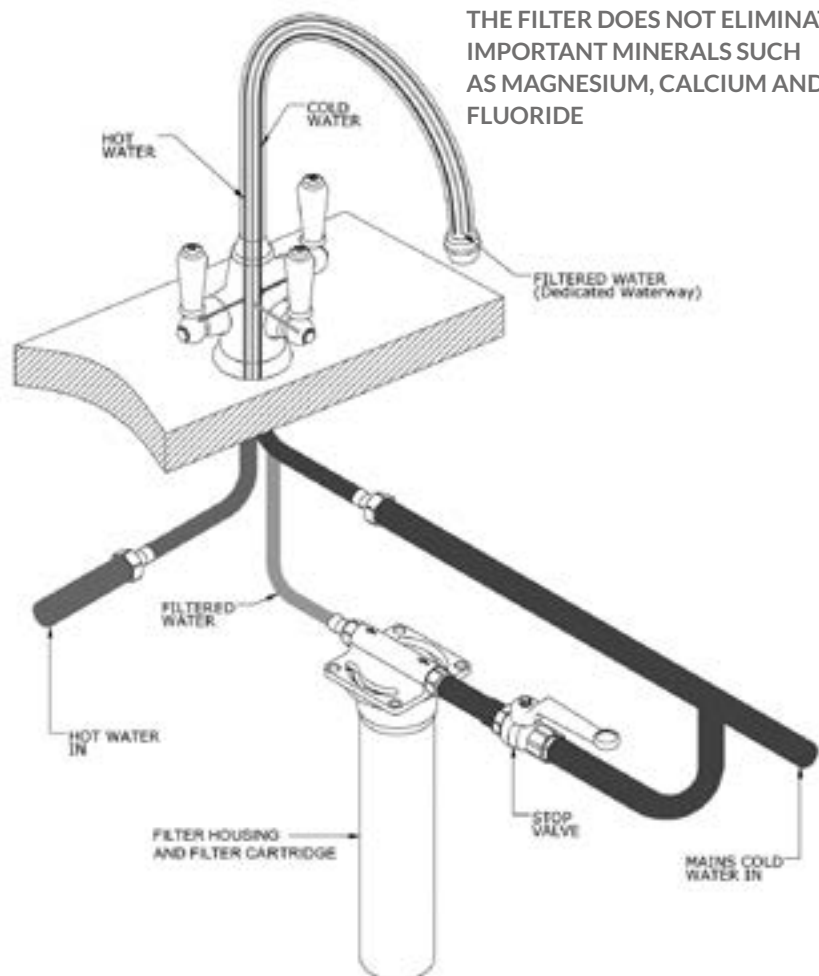

Benzene

Radon

Turbidity

Heavy metals such as lead

THE FILTER DOES NOT ELIMINATE IMPORTANT MINERALS SUCH AS MAGNESIUM, CALCIUM AND FLUORIDE

Single Flow Spout

SPOUT OPTIONS

The Traditional range of kitchen sink mixers offers interchangeable spouts, enabling you to create a look and flow that suits you.

All mixers in the Traditional range (excluding Mayan) are available with either a Phoenician or Etruscan spout.

TRADITIONAL COLLECTION
PHOENICIAN SPOUT

TRADITIONAL COLLECTION
ETRUSCAN SPOUT

Single flow spouts

Single flow spouts are ideally installed in systems with equal pressures. Spouts are fitted with an aerator, providing the uniform 'Champagne style' flow as standard.

Minimum recommended installation pressure = 1bar.

A flow straightener is also available on request.

Biflow spouts

Products with biflow spouts are ideally suited to installations with differing hot and cold supply pressures, especially where the hot supply is gravity fed.

Minimum recommended installation pressure = 0.2bar.

If your installation has equal pressures then you may prefer a single flow spout. All our biflow products are available as a single flow, just prefix the product code with the letter A.

Regulated spouts

If you have high pressures or are concerned about water consumption then you may wish to regulate the flow. All our products are available with regulated single flow spouts – just prefix the product code with AR.

Minimum recommended installation pressure = 2bar.

Brassware finishes and Lever handle options available. See page 73

6490 AB	Aged Brass	£153.60

GUARANTEE

All products are manufactured in the UK from the highest quality raw materials available.

Plating on Perrin & Rowe Products exceeds the industry standard by 10 microns: standard at 15 microns, and Perrin & Rowe at 25 microns. This additional plating will ensure a deep, protective coating that is resistant to wear and tear and is very pleasing to the eye.

Each product is assembled by hand and individually water tested to ensure peace of mind.

All products include bearing rings on valves for maximum durability. Bearing rings give Perrin & Rowe products a stable "wobble free feel". Engineering 'O' rings are also used. These 'O' rings are more durable than standard washers and less likely to cause problems due to drips and leaks.

Ceramic disc valves are supplied by Flühs of Germany, the world's leading cartridge manufacturer.

PARTS WARRANTY

IMPORTANT INFORMATION

Perrin & Rowe kitchen products have a minimum recommended installation pressure of 0.2 bar and a maximum recommended installation pressure of 5 bar, with the following exceptions.

RINSE OPTION/SINGLE FLOW SPOUTS

Minimum recommended installation pressure = 1 bar (single flow spouts).

Minimum recommended installation pressure = 1.5 bar (taps with rinse).

Maximum recommended installation pressure = 5 bar.

Rinse hose standard length = 1200mm.

Rinse hose not to be connected directly to cold mains; separate from main mixer.

All rinse options have single flow spouts.

Due to TCL Manufacturing Ltd continuing policy of product development, we reserve the right to modify or alter designs at our discretion.

All measurements shown in this document are in millimetres (mm).

TCL Manufacturing Ltd Terms and Conditions are available upon request.

BRASSWARE FINISHES

Perrin & Rowe brassware is available in three standard and five special finishes. Special finishes come with an approximate 8 week lead time, this can be confirmed when placing an order. A care guide is available for all finishes on our website.

STANDARD FINISHES

CHROME (CP)

A brilliant, silver finish with a hint of blue.

NICKEL (NI)

A shiny finish with a golden glow.

PEWTER (PF)

A brushed nickel finish with a blue-grey, matte appearance.

SPECIAL FINISHES

ENGLISH BRONZE (BZ)

A metallic brown finish with subtle notes of orange and copper.

GOLD (IG)

Plated with 24 carat gold pure yellow in colour, with a natural glow and high shine.

LIVING FINISHES

The three brass finishes are described as 'living finishes' which means they develop a unique patina as they react with their environment.

POLISHED BRASS (BR)

A warm finish with coppery undertones.

SATIN BRASS (SB)

A matte finish with strong undertones of yellow ochre.

AGED BRASS (AB)

A darker finish with a tarnished, aged look.

LEVER HANDLES

The Traditional Collection of Perrin & Rowe kitchen mixers offer a variety of combinations of colours and finishes.

Through the innovative use of materials such as Brass, Porcelain, Corian and Avonite, Perrin & Rowe has made it possible to design a tap to suit your own individual requirements.

Prices shown relate to spares or replacement handles only. It is recommended that these handles are purchased in pairs to ensure a perfect colour match.

Important Note: The colours shown are not exact representations.
